Automatic activation units

Impulse activation and presence detection unit

	Combined direction (or motion) and presence detection unit for sliders, black. Not monitored Activ8 One OFF	□ 738747
	Combined direction (or motion) and presence detection unit for sliders, black. Can be monitored by UniSlide Activ8 One ON	□ 1700156
	Combined (active infra-red) motion and presence detection activation unit with black surface mounting cover. Relay output OA-203C	□ 1700071

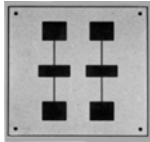

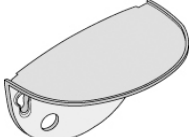

R2 radar impulse activation unit, motion sensing (bi-directional)

	Motion sensing radar activation unit with black surface mounting cover R2 <i>Reference 655744</i>	□ 738704
---	--	----------

Radar impulse activation unit, direction sensing (uni-directional)

	Direction sensing radar activation unit with black surface mounting cover. Can also be used as motion sensing (bi-directional) R1 <i>Reference 655744</i>	□ 738703
	Direction sensing radar activation unit with black surface mounting cover. Can also be used as motion sensing (bi-directional) R3 <i>Reference 1000631</i> Note! Used on TÜV operators where monitored inner radar is a demand.	□ 738705

Accessories

	Radar antenna to convert R2/R1 radars to narrow impulse detection field RAN <i>Reference 655744</i>	□ 738706
	Weather protection cap , transparent for R2/R1 radars RWP <i>Reference 655744</i>	□ 738708
